2. Apartments

We have a number of apartments for teachers in various Frankfurt locations. They are rented by ISF and then sub-let to overseas teachers. All these locations have easy access to local shops and public transport in their vicinity.

Unfortunately, it will not be possible just now to tell you which apartment will be yours. However, we can give you an insight into the surroundings you can expect to encounter when you arrive.

The shop opening times in Germany are between 0800hrs to 2000hrs. Shops are closed on Sundays. Don't panic, though, as there are shops open on Sundays for basic supplies at the main train station and airport.

3. Apartment Costs

The rental costs for an apartment are between €650 and €1450 per month depending on the square meters, number of rooms and number of occupants.

APARTMENT MONTHLY CHARGES INCLUDE COSTS FOR:

- Basic rent
- Interest on deposit
- End of tenancy redecorating and cleaning
- Legally required insurances
- Estimated payment of utilities
- Furniture
- Electricity – monthly estimate charged by Service Company with a yearly adjustment for actual usage.
- Gas – monthly estimate charged by service company with a yearly adjustment for actual usage

THE CHARGES DO NOT INCLUDE:

- Telephone
- Internet
- TV/Radio License

4. Telephones & Internet Access in the Apartments

Telephones and internet are not part of basic apartment furnishings. Instead the type of equipment and services is up to the tenant upon arrival. The reason for this is that some people might prefer to have a cell/mobile/‘handy’ phone rather than a fixed line. Also the options on the telephone and internet lines and service providers vary. Owing to the fact that there will not be telephone and internet in the apartment on arrival, be aware that it could take up to 3-4 weeks to have a line connected. It is not a problem for you to give the school details as emergency contacts. In previous years, new staff purchase on their first morning in Frankfurt a ‘pay as you go’ chip/sim card for their mobile phone, they can work out expensive for international calls, but if it’s a smart phone then a sim card with pay as you go data will work just fine and there are plenty of places with wifi nowadays so you can be contactable straight away. Vodafone and O2 are the largest providers here in Frankfurt and there are shops in the main shopping street, Zeil, so easy to do.

5. Moving to Frankfurt – see also contract, point 8

6. Cost of Living

The cost of living in Frankfurt is very similar to that in both the United Kingdom and the United States. A normal weekly grocery shopping for one person will be around €75-€100. Eating out in Frankfurt is quite reasonable – with a meal costing around €15 per person depending, of course, on the choice of restaurant and menu!!

7. Computers and other Electrical Items

Please remember that anything electrical you may wish to bring needs to be able to run on 220v electricity.

Map of Frankfurt am Main (School is situated at the far left of the city boundaries in a town called Sindlingen)

8. Driving Licenses

There is very little need to have a car in Frankfurt, as the public transport is inexpensive, frequent and safe. If you have a non-EU (European Union) license then you can only drive in Germany for 6 months before you have to have a German license – unless your driving license is issued in a USA state that has a reciprocal agreement with Germany. If you would like to know this we suggest that you contact your license bureau at home before your move. Taking a German driving test is time consuming and expensive. There are no restrictions on driving in Germany for those with a EU license.

9. Getting around on the Public Transport

The trains, street cars (trams) and local buses are inexpensive, safe and frequent. A monthly card that covers travel on all forms of public transport within the Frankfurt city boundaries costs approximately €100. The school is within the city boundaries, as are all school apartments. It takes approximately 20 minutes by local train to travel between the city center and the school.

10. Banking

To open a bank account in Germany, you must first be registered at a German address. This registration is also the first formality towards obtaining your residency and work permits. We will help you with this registration. The School banks with the Commerzbank and therefore we can arrange appointments with English speaking representatives for you. This bank also has their online banking in English and they offer the ISF staff a Visa card. Most of the staff leave their home bank accounts open as they may need to have payments made from/to them during their stay in Germany.
